# ***STRENGTHENING HUMAN CAPITAL THROUGH TARGETED MOBILITY ACTIONS IN THE FASP SECTORS - OUTLINE***

**Aim #1** - Contribute to build solid basis for the development of programmes on mobility in the FASP, addressing the need for consolidated data on funding for mobility at national/institutional level, aiming at capitalizing methodologies and initiatives.

**Aim #2** - Facilitate the implementation of mobility activities looking for an intervention to use staff exchange programmes under aligned objectives.

**Aim #3** - Give voice to the private sector also with reference to possible mobility of experienced industrial technical personnel to research institutions.

**Available tools** - depending on recipients, ranging from PhD courses targeting COFASP needs or short-term mobility programmes for young researchers, to Vocational Education and Training (VET) actions to be addressed in support of industrial research needs for the private sector operators, ...

# 7 questions for discussion

- A. According to available human capacity building opportunities at international, national and regional level, what are the main needs and gaps to be fulfilled within the sectors of your expertise with particular regard to the FASP domain? (i.e. private, research, etc.)**
- B. How could the organization you represent contribute in a step-by-step process towards the implementation of a mobility strategy for the FASP?**
- C. What resource mobilizations could be implemented with regard to the creation of a PhD course targeting COFASP needs? How the private sector could be involved in it?**
- D. What are the major difficulties faced by the private sector to get information on training and mobility programs in the FASP sectors?**
- E. How would you evaluate the impact of short or spot mobility initiatives like those implemented at the institutional level, or in the framework of networking projects mainly allowing exchange through workshops (e.g. those funded by COST actions)?**
- F. How would you start a new dialogue for engaging the private/public sector in a joint collaboration on mobility and training (e.g. Staff Exchange Scheme, structured program, etc.)? How would you streamline funds according to available opportunities?**
- G. At the national level, how Funding Agencies could implement further proposals and commitment?**

## + 1 Provocative question

**Is it time for an ERANET-like scheme targeting training through mobility in a specific sector (in our case the FASP)?**

***If yes what is the role of research funders, including funding agencies?***
